## "August Flower"

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used your preparations with beneficial results, I procured a bottle of August Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES E. DEDERICK, Saugerties, New York.

W. B. Utsey, St. George's, S. C., writes: I have used your August Flower for Dyspepsia and find it an excellent remedy.

**Brace Up, Boys!**  
What is the matter with our boys? Are the public schools too much for them?

Not long ago one of our newly elected congressmen notified the lads of his district that they were all welcome to try for a cadetship at West Point and that the best man would get the place, irrespective of race, color or financial condition.

A large list of applicants responded, but, strange to say, the utmost difficulty was experienced in finding youths that came up to the physical standard required for entrance to the military school. One doctor examined seven applicants and found only one to whom he could give a clean bill of health, and this was about the general average. The boys came from the working classes.

Many New York physicians believe that the terrific grind that the old molasses of the board of education have forced upon our children in the public school has much to do with the deterioration of the health of the coming generation. I know one public school principal that sends his boys to a private school, and when I asked him the reason, "I would not let them go to the public school for the world," said he. "I have seen the thing work for twenty years, and I know that the system that exists in New York today is harmful to any but the very sturdiest and laziest kind of children."

Men and brethren, are not these things worth thinking about?—New York Herald.

**A Clergyman's Strange Disease.**

The death of the Rev. Thomas Pitts, D. D., of Pittsburg, gives to medical science the strangest case ever known in pathology. An autopsy has disclosed that the late minister had a veritable thorn in his brain.

Dr. Samuel Ayers, the specialist on diseases of the brain, conducted the post mortem. When the skull was opened a long plate was discovered. It was two inches in length, three-quarters of an inch in width, and had a very rough surface. It was found occupying a part of the membranous partition, between the two hemispheres of the brain. The minister died suffering from convulsions, which were doubtless caused by this bony growth.

This also explains all that seemed unaccountable in Dr. Pitts' erratic conduct and actions during the last few years of his life. Dr. Ayers said he did not believe there was a similar case in the history of medicine. As yet he is unable to explain the presence of this strange growth. There is more or less bone deposit in the brain, but why this form was taken is still unexplainable.—Cor. Philadelphia Press.

**Street Car Sprinklers.**

In St. Paul, where not long ago a brand new cable plant valued at \$400,000 was consigned to the scrap heap in order that the street railway company might install electric cars on its lines, an ingenious method has been adopted for the laying of the dust which in summer time causes much annoyance to passengers. A line of water cars, very much after the fashion of the ordinary street sprinklers, are being built, and on each water car will be mounted a tank 6 by 12 feet long. Two or three cars will be connected by hose and attached to the locomotive, so that one train can sprinkle the whole track. The journey between St. Paul and Minneapolis will thus, in future, be as rapid and pleasant as it was formerly tedious and distressing, and the inhabitants of those cities are looking forward with much satisfaction to the prospect of cool and enjoyable travel.—New York Recorder.

**Costly Food for a Goat.**

Heated with his work in the field Farmer Kalbach, of Reading, hung his vest upon a fence post. In one of the vest pockets inclosed in a wallet were greenbacks to the amount of forty-one dollars.

In the field was Mr. Kalbach's pet goat. In the goat's stomach, when Kalbach returned, were the bank bills, most of the wallet and a large portion of the vest.

Kalbach at once slaughtered his pet goat. All but fifteen dollars of the greenbacks had been properly chewed in aid of his goatship's digestion. The twenty-six dollars thus chewed was past redemption.—Philadelphia Record.

**Goodby, Yuma.**

There is a strong probability that the romantic old town of Yuma will pass out of existence. For years the track of the Southern Pacific in the locality of the town has been entirely washed out, or so badly damaged that thousands of dollars had to be expended to put it back into condition. Last winter three-quarters of the town itself was destroyed by floods, and now the railroad contemplates changing the route so as to leave Yuma off the line by crossing the river several miles north of the old site.—Santa Ana (Cal.) Press.

The amount of coloring matter stored in opals, such that one pound of the mineral yields magenta sufficient to color 600 yards of flannel, aurine for 120 yards, vermilion for 2,500 yards, and alizarine for 255 yards of Turkey red cloth.

Diamonds have been found in British Guiana, where a gold mine owner recently collected 633 stones. An expert in London declared 633 of the specimens to be diamonds of the purest water.

THE CARSON MINT.

It now appears that the reduction of ten per cent in the wages of employees at the Carson mint was premeditated, with malice aforethought and on the part of the treasury department. Ivan C. Michels, who has been the Washington correspondent of several Nevada papers for years, writes that the last Congress increased the appropriation for wages of workmen and adjusters at the Carson mint from \$30,000 in 1891 to \$60,000 in 1892.

As this is an "off year"—that is no election is to be held in Nevada in 1891—the administration does not care if the force at the mint is reduced to the salaries of officers, who are not affected by the ten per cent reduction in wages; in fact, it was given out that an order was received at Carson to suspend the coinage of silver after the 30th day of June last. Pressure was then brought to bear on the administration from the bosses in this state, who represented that it would injure the party to stop silver coinage. Finally, for the good of the party, the order was modified, and those who were discharged were recalled and set to work at reduced wages.

Here is an example for the Carnegies, whose wealth is piling higher and higher, while the wages of their employees are reduced lower and lower, to follow. The administration, while pretending to be the champion of American labor, reduces the wages of employees engaged in a business from which the government derives millions of dollars profit annually. It is true this profit is the result of legislation hostile to the silver mines, but the millions which it has placed in the treasury prevents a deficiency and are counted as assets just the same as if the money was not the result of a deliberate attempt to cripple an industry which adds fifty or more millions of dollars to the wealth of the country annually.

What can rational human beings, whose sense of justice is not warped by prejudice, think of an administration which claimed all through the last session of Congress that the legislation which it sanctioned was for the benefit of labor, and then, as if anxious to proclaim to the world the insincerity of its professions, gives those employed at the Carson mint the option of accepting reduced wages or seeking employment elsewhere?

THE UTAH ELECTION.

For the first time in the history of Utah Territory an election has been held on National lines. There were three parties in the contest, the Democratic and Republican, composed of Gentiles and Mormons, and the Liberals, composed almost entirely of Gentiles. It was charged by the Liberals that the Mormons would vote for the members of their church regardless of the ticket on which they were nominated, but the returns show this accusation was unfounded; in fact, the Mormons divided on partisan lines fully as much as the Gentiles. There were bishops and elders of the church on both the Republican and Democratic tickets, and the returns show that they received no more votes than the Gentiles.

The Liberals carried Salt Lake City and elected about one-third of the members of the Legislature, while in Ogden the Democrats were successful by a small plurality. The Democrats have a majority in both branches of the Territorial Legislature, but the Liberals control the municipal government of Salt Lake City.

MINERAL LANDS.

Acting Secretary Chandler of the Department of the Interior has made a new decision which will materially change the practice of the department as to agricultural entries which are subsequently found to be mineral in character. The acting secretary holds that in order to defeat agricultural entry on the ground of mineral character of land, it must be shown that the mineral was known to exist at the time of entry. Heretofore the practice has been to cancel agricultural entries where mineral was discovered at any time prior to issuance of patent.

Dr. Baldwin arrived at New York on the steamer Mojestic from Europe, and left at once for Bar Harbor. He is the physician who treated Secretary Blaine during his stay in Florence, Italy, in 1888. He came from Europe at the request of Secretary Blaine, as he was very successful in treating his chronic troubles three years ago.

Terrific Thunder Storm.

WINNIEG, August 7.—A madden dis patch says a terrific storm of thunder and lightning last night raged in that section. Grain is in bad shape. Lightning struck the dwelling of a farmer named Daniel Martens, killing Mrs. Martens and stunning Martens and six children. At Moose Jaw, Mrs. John McGowan was killed by lightning.

Chili Will Declare War Against Bolivia

CAUSE OF THE CHILEAN WAR.

Terrific Thunder Storms—Several People Killed By Lightning—An Editor Kills Himself at Eureka—Serious Charges Against the Captain of the Alicia.

The Cause of the Chilean War.

SAN DIEGO, August 7.—Efforts are being made to have the Pensacola remain in San Diego harbor until after the Grand Army Encampment which occurs next week. Unless the War Department so orders the Pensacola will start north tomorrow. In a conversation with an officer of the Pensacola to-day considerable information was obtained as to the cause of the Chilean trouble. He said: "The Constitution of Chile is the real cause of the war. There is no power to punish the President for misconduct. He cannot be impeached and he cannot be prosecuted. When he takes the office he takes an oath not to leave the country for one year after the expiration of the term. This makes it necessary for him at the end of a regular term of five years to nominate his successor, who agrees to defend him. His nominee is always elected, even if the people have to be thrown in jail so that the election can be carried. In this way Balmaceda has just nominated and elected one of his former Cabinet officers named Vienna. One day I heard how some recruits were provided for Balmaceda's army. The people were not anxious to enlist, so they sent out a detachment of cavalry as a press gang. They caught 400 that way. The recruiting officer sent a note to the commander to 'I send you 400 volunteers. Please return handoffs.' At another time the Colonel had his regiment drawn up. He rode out and informed his men that the next morning they would start on a two days' march, and then have an engagement with Congressional soldiers. If there is any reason why any of you do not want to go, step out of the ranks and say so. When he concluded, seven of the poor devils stepped out and said they did not want to go, and they didn't go. Those seven were straightway backed up against a brick wall and shot. 'My conclusion was,' continued the officer, 'that the Congressional party advocates worthy reforms which ought to be, and doubtless will be, adopted, either as a result of this war or through political legislation, but it is a good country to keep away from now.'

Dining Cars vs. Eating Houses. Special to the Journal. CHICAGO, August 7.—On a bill filed in the State Circuit Court by Fred Harvey, Judge Driggs issued an injunction restraining the Atchison, Topeka & Santa Fe Railroad Company from running dining cars upon its lines west of the Missouri river, covered by a contract with him, from feeding passengers between any of the points upon this portion of the road, and from refusing to stop its passenger trains at the complainant's hotels and lunch rooms. Harvey represents that his plant covers nearly 2,500 miles of railroad and has cost him \$150,000. He is conducting twenty hotels and eating houses and now the road threatens to put on dining cars and give his places the go by. Railroad people say the contract does not deprive them from putting on dining cars and will move for a dissolution of the injunction.

The Keystone Bank Muddle. Special to the Journal. PHILADELPHIA, August 7.—In an unexpected manner H. H. Yard, who is under bail for trial on a charge of conspiracy with John Bardsley, was heard from by Receiver Yardly of the suspended Keystone National Bank this morning. Shortly before noon Yardly learned that Yard intended to offer the Keystone Bank's Seagirt property at public sale tomorrow. This property formerly belonged to John Lucas, the former President of the bank, and was assigned by his widow to the bank, together with the bank building, to make up the now famous Lucas deficit. Yard claims the bank afterwards sold it to him, but nobody but himself seemed to have any knowledge of such a sale. Yardly will endeavor to prevent the sale.

Chili Will Declare War Against Bolivia Special to the Journal. PARIS, August 7.—A telegram was received here to-day from Buenos Ayres which asserts that Chili will declare war against Bolivia because the Government of the latter country has recognized the Congressional party of Chili as belligerents.

Serious Charges Against the Captain of the Alicia.

Special to the Journal. SAN FRANCISCO, August 7.—Steward H. F. Moulin, of the bark Alicia, which was stranded in Apia harbor, Samoa, last February, arrived from Samoa on the Alameda yesterday.

To a Chronicle reporter he made grave charges against John O. Broadhurst, captain and part owner of the Alicia. Moulin says that when the Alicia left Newcastle she was leaking slightly and put into Apia. She was surveyed and pronounced seaworthy. The cargo was partly discharged and she was surveyed again, this time being condemned. That night she was blown ashore by the gale while the captain and crew were ashore. The Alicia was then sold to a wrecking firm.

Moulin charges that after the first survey the captain scuttled the ship in order to secure the insurance. The Alicia was insured in the Union Insurance Company for \$9,000, but owing to the charges the company refused to pay, and so it was brought here to-day to compel the payment of the insurance. The attorney of the insurance company says he has an affidavit sworn to before the British Consul at Apia, by several of the Alicia's crew, which corroborates Moulin's charges.

Captain Broadhurst, who is in the city, denies the charges.

An Editor Kills Himself.

Special to the Journal. SAN FRANCISCO, August 7.—The Chronicle's Eureka correspondent says, Luigi Verdi editor and proprietor of the La Voz del Pupulo, the principal Italian paper published in San Francisco, while delirious from fever to-day shot and killed himself.

THE TROUBLE WITH SENATOR STEWART.

What's the matter with Senator Stewart for a Farmers' Alliance leader?—Gazette.

From present indications he will have to join the Farmers' Alliance in order to get into congenial political surroundings. His radical views on the silver question, which he never loses an opportunity of publicly expressing, are getting him roundly abused in the editorial columns of his party papers in the Middle and Eastern States.—Austin Reveille.

DIED.

GILSON.—In Winnemucca, August 6, 1891, A. T. Gilson, a native of New Hampshire, aged 61 years.

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors," which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofula, a sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. B. CARLISLE, Naughton, N. J. N. B. Be sure to get only

NOTICE OF GUARDIAN'S SALE OF REAL ESTATE.

NOTICE IS HEREBY GIVEN THAT PURSUANT to an order of the District Court of Washoe county, State of Nevada, made on the 6th day of August, 1891, in the matter of the guardianship of George F. Barker and Ernest Barker, minors, the undersigned, guardian of the persons and estates of said minors, will sell at public auction, to the highest bidder, in one parcel, or at private sale, as she may deem for the best interests of said minors, and subject to the confirmation of said Court, on

Monday, the 31st day of August, 1891.

Between the hours of 9 o'clock A. M. and 6 o'clock P. M., to-wit, at 12 o'clock M., at the Court house of said County, in Reno, in said county, all the right, title and interest of said minors in and to the real estate described as follows:

An undivided one-eighth interest belonging to each of said minors in that certain lot, piece or parcel of land described as the west half of the southeast quarter, and the west half of the northeast quarter of section twenty in township eight, north of range twenty east, Mount Diablo Base and Meridian, containing one hundred and sixty acres, with the improvements thereon, situate in Washoe county, State of Nevada.

Terms and conditions of sale: Cash, twenty-five per cent, on day of sale; the balance in five months thereafter, with interest at ten per cent per annum, secured by mortgage on the premises.

August 5, 1891. Guardian of said Minors

NOTICE TO CREDITORS.

BREVITIES

Bar silver 100 3/4.  
Dr. T. Wah Hing has returned from a professional visit to Virginia.  
Theo. Winters is at Garfield Park, Chicago, with his string of "flyers."  
Hon. G. W. Cassidy was a passenger on the east-bound train yesterday.  
Patrons of Mrs. S. C. Judd should read what she says in the 50-cent column.  
J. F. Bigelow, Vice President of the Nevada Bank, returned to San Francisco last night from Virginia.  
Mrs. O. W. Ward, Miss Myrtle Sabin and Misses Annie and Francis Frey returned from a trip to Tahoe last night.  
Senator Archie McDonnell arrived by private conveyance yesterday and left on the express train for San Francisco.  
The attention of those of whom it may concern, is directed to the professional card of O. A. Jones, attorney-at-law.  
R. C. Chambers of Salt Lake City, Superintendent of the Ontario mine, passed through yesterday, homeward bound.  
The Central Nevada says nine contractors are at work sinking a shaft and running a tunnel on the Tip Top mine at Pittsburg.  
Mrs. Wm. Webster, Jr., Misses Stella and Bessie Webster, and Miss May Pearson of Virginia returned from Lake Tahoe last night.  
Charles Michelson, the special correspondent of the Examiner left for Pine Nut yesterday to see the country, and report on the mines.  
John F. Bigelow is in Virginia City transferring the banking and brokerage business of Wells, Fargo & Co. in that city to the Bank of Nevada.  
A finely illustrated entertainment will be given at the Baptist Church Tuesday evening next. Choice singing and music by Reno's favorites. All go. Admission 25 cents.  
Nine horses are entered for the \$500 purse at Steamboat Springs to-morrow. A special train will be run from Virginia City for the accommodation of those who desire to attend.  
Justice McBeth, who discovered Battle Mountain District and located the present town of Galena, has recovered from his recent illness and is able to attend the duties of his office.  
United States Marshal Moore was here yesterday summoning United States Grand Jurors. He made a raid on the county officers and captured Commissioner Hymers and Clerk Perry.  
The fourth baseball contest between the Virginia and Carson mines will take place at Steamboat Springs to-morrow. A gold medal will be awarded the victors besides \$50 on each game.  
Berry & Novacovich received a car-load of luscious watermelons yesterday right from where they grow, and specimens of them left at the JOURNAL office were pronounced delicious.  
A French journal announces the discovery of a very simple means of curing obesity. It consists of never eating more than one dish at each meal, no matter what that dish may be.  
Frank Morcross and Fred Hagerman returned yesterday from a camping trip to Lake Tahoe. They attended the Chautauqua Assembly at Hot Springs and visited other noted places of resort.  
The News says Sacramento is flooded with bogus quarters of the minting of 1889. In appearance they look like the genuine article, and in size, ring and weight are almost perfect, but they will not stand the acid test.  
The Independent says the School of Methods opened last Wednesday with a full attendance. Professor Ring, State Superintendent, has charge of the school and the teachers are much interested in the work.  
Residents of Portland, Indiana, were treated to a novel spectacle a few nights ago, in the shape of a blazing train at full speed. Several car-loads of cedar posts ignited and were nearly consumed before the train was stopped.  
The Congregational Sunday School children, with their parents, and friends, will give a picnic at Merrill's Grove, Verdi, on Thursday, August 13th. They will leave Reno at 7:55 A. M. and return on the regular passenger train in the evening.  
Anyone knowing the whereabouts of A. McDaniel, who is supposed to have been employed in the railroad blacksmith shop at Carson, three years ago, will confer a favor by informing William Smith, 730 P street, Sacramento, Cal., of the same.  
R. H. Williams, Assistant Observer at the Death Valley weather station, has arrived at Keeler, Inyo county, from Furnace Creek, for medical treatment, having been prostrated by the intense heat. He says in July the hottest weather was 122, the lowest 72 and the monthly mean 101 degs.  
Dr. Delamater McClure, who has been lecturing to large audiences at Armory Hall for the last week will close this evening with a lecture on love, courtship and matrimony. There is no charge for admission and everybody is invited to attend. The Dr. is learned and eloquent.

JOHN A. COCKERILL.  
John A. Cockerill, probably the best-known newspaper man in the Union, was born in Adams county, Ohio, in 1845. He began journalistic work at a very early age, his first contribution appearing in The Section of Temperance published in Dayton, O., on which paper he was compositor, carrier, roller-boy and "devil." His article was but two lines, but it was the beginning of the newspaper career of young Cockerill. He says "How the press has improved since I helped to tug off the edition of the Section! When I see the monster Jambonian presses in the World office, printing, pasting, cutting, folding and delivering 40,000 light page papers in one hour, and realize that I have almost seen the evolution from the hand-press in my day it makes me feel antique." When twenty-three years old he became editor of the Dayton Ledger and made it a power in the town. In 1870 he joined the staff of

the Cincinnati Enquirer and in 1872 was its managing editor. The McLeans recognized his eminent ability and when the war broke out between Russia and Turkey he was sent to Europe as special correspondent. His letters were models in their way and attracted much attention. In 1878 he took charge of the Baltimore Gazette temporarily, and 1879 was offered the managing editorship of the St. Louis Post-Dispatch which he accepted. Here he remained until 1883 when he went to New York with Joseph Pulitzer to re-found, as it were, the New York World, then in the throes of dissolution. The success of this newspaper under John A. Cockerill's management is well known and needs no comment. Mr. Cockerill recently left the World and purchased the New York Commercial Advertiser, the oldest paper in the city, and the Daily Continent the latter now being called the Morning Advertiser. It is a one cent paper. Both the Commercial Advertiser and Morning Advertiser are edited by Mr. Cockerill in his peculiar dashing and brilliant style.

THE SKY IN AUGUST.

A Meteoric Display Looked for Next Week.

The event of especial popular interest in the astronomical annals of August, says the Globe-Democrat, is the meteoric display which is booked to take place Sunday, Monday and Tuesday nights.  
"At certain periods of the year the meteors are unusually numerous. For example, on the nights of August 9th, 10th and 11th, and November 12th, 13th and 14th, twice or three times as many are in the field of vision as on other nights on the average. The shooting stars seen on those two occasions belong to streams of those minute bodies which pass around the sun, each of those particles moving around the great central luminary of the solar system in an orbit, the orbits of each swarm intersecting the earth's path at one point. The earth, when swinging in its course, dashes through one of these streams early in August and the other near the middle of November, during which time the meteors are deflected from their course by the earth's attraction, and are ignited by the arrested motion caused by the resistance of our atmosphere, leaving a luminous train behind them. Most of them are burnt up before reaching the earth. Those which are large enough to run the gauntlet successfully and strike the ground are known as aerolites or meteoroids.  
"The absence of the moon adds something to the beauty of meteoric displays. On the night of the 10th of August the moon will be in the southwest at sunset, and will disappear about 10 o'clock. Between 10:30 on the nights of the 9th, 10th and 11th, and 3 or 4 o'clock the next morning, will be the best time to look for meteors. The August falling stars come from the point in the sky occupied by the constellation Perseus, which rises into view in the northeast these nights between 10 and 11 o'clock. Perseus is called their radiant point. If the meteors of the first half of August be traced back along their course they will be found to emanate from the locality filled by this star group. November's meteors come from the point occupied by the constellation Leo. Those of August are called Perseids, and those of November Leonids."

ARTHUR MCEWEN ASSAULTED

He Narrowly Escapes a Bullet.  
The Oakland Enquirer describes an assault upon Arthur McEwen, the well-known newspaper writer, by Senator Frank J. Moffit of the Oakland Times. The Enquirer says Moffit, deliberately presented a revolver to McEwen's breast and fired. McEwen swerved to one side and escaped without injury, the ball passing through his clothing under the arm.  
The cause of the shooting is said to have been caused by Moffit's unwillingness to pay a bill due McEwen for letters written for the Times.

ABSOLUTELY PURE

UTAH IRRIGATION CONVENTION.

Delegates Appointed by Governor Colcord.  
The Carson News says: Governor Colcord Thursday appointed the following thirty gentlemen to represent Nevada at the Irrigation Convention to be held in Salt Lake City on September 15, 16 and 17:  
Thomas Wren, Geo. W. Cassidy, A. C. Cleveland, M. D. Foley, C. H. Sproule, Chas. Kaiser, E. D. Boyle, J. R. Bradley, H. A. Cohn, C. W. Hinchcliffe, D. L. Bliss, R. L. Fulton, Sam Longabangh, D. C. McQuitty, H. Springmeyer, George Ernst, E. D. Kelley, E. P. Lovejoy, Angus McLeod, Geo. S. Nixon, John Dennis, James McFadden, A. W. Geer, D. B. Park, Lem Allen, J. N. Jones, Geo. W. Orum, Geo. Young, A. J. McCarthy, J. G. Ford.

Death of a Pioneer.

Austin P. Gilson, postmaster at Winnemucca, died last Thursday evening. He had been troubled with a complication of diseases for years, but bore up bravely, attending to his duties as County Clerk, and subsequently as postmaster until quite recently.  
A. T. Gilson mined in California early in the fifties. He came to Nevada in 1861, and had a ferry boat on the Humboldt slough below the Sink in the Spring of 1862. He followed various avocations in Humboldt, and was elected Clerk of that county four times successively. He was generous and kind hearted. His friends were numerous and enemies few, and for years was one of the most popular men in the community in which he resided. His funeral will take place to-day, and the services will be conducted by Humboldt Lodge, I. O. O. F., of which he was a member.  
He leaves a widow and a daughter, the latter a resident of Colorado, where she has resided for years.

INDIAN DELEGATES.

Big Red Men Who Have Been to See the Messiah.  
Last night five Arapahoes and three Cheyennes, big chiefs from Darlington, Indian Territory, arrived from Walker Lake reservation. They had been delegated by their respective tribes to visit Nevada and see the Messiah who had caused such a craze among the Indians last winter. What they thought of the Walker Lake prophet they would not say. One of the red men wore a uniform and displayed a badge on which was inscribed "Black Coyote, Policeman, Darlington, I. T."

THE RENO STAKE.

A Special Race at the State Fair.  
A special race will take place at the Nevada State Fair, September 22d, as follows:  
The Reno Stake, for all ages; of \$100 each, \$20 forfeit, with \$1,500 added, of which \$250 to second, third horse to save entrance. Winners at this distance in 1891 to carry five pounds extra—1 1/4 miles. Entries to close September 5th with the Secretary.  
By order of the Board.  
O. H. STODDARD, Secretary.

Notice to the Public.

Having re-fitted my barber shop and bath house with extra fine porcelain bath tubs, my bathing facilities surpass anything of the kind in this State, without any exception. Nothing but first-class work at C. Coleman's, west side of Virginia street, next to Fredrick's jewelry store.
